Re: Administrative Docket Rulemaking No. 17: Compliance Filing of Baltimore Gas and Electric Company - Supplement 441 to P.S.C. Md E-6

Response to Request for Additional Information

Dear Ms. Romine:

At the April 7, 2010 administrative meeting, the Commission requested a description of Baltimore Gas and Electric Company's (BGE) process for addressing outstanding electric supplier charges once BGE begins purchasing receivables. That process will be as follows:

- On day one of purchase of receivable (POR) implementation, BGE will purchase the receivables for new electricity charges only. These purchased receivables will be treated as BGE receivables.
- All prior electric supplier arrearages, regardless of the age, will remain on BGE's bill for 120 days. During that time they will be subject to the current payment posting priority and partial payments will get posted to those accounts in accordance with that posting priority. If application of these partial payments results in supplier charges becoming in arrears, customer payments made on the account will be applied prior to the current utility charges in accordance with the payment posting priority. BGE will not take collection or termination action on any supplier arrearages prior to the implementation of POR.

Terry Romine, Executive Secretary

Page 2

- After 120 days, any electricity supplier charges billed by BGE prior to the implementation of POR will no longer be billed by BGE and will be returned to the suppliers at the time that customer's bill group is being processed.

Sincerely,

A handwritten signature in black ink, appearing to read "Kimberly A. Curry". The signature is stylized with a large, sweeping flourish at the end.

Kimberly A. Curry
