Winter 2013-2014 Operations and Market Performance in Regional Transmission Organizations and Independent System Operators

Docket No. AD14-8-000

April 1, 2014

Agenda

The purpose of this technical conference is to explore the impacts of recent cold weather events on the Regional Transmission Organizations (RTOs) and Independent System Operators (ISOs) and discuss actions taken to respond to those impacts.

9:00am - 9:15am

Welcome and Opening Remarks

9:15am 10:00am

Staff Presentation by the Federal Energy Regulatory Commission (FERC) Office of Enforcement

10:00am 12:30pm

Panel 1: Presentations by RTOs/ISOs

Each RTO/ISO will have the opportunity to present for 20 minutes and is encouraged to explain: (1) the steps it took to prepare for the cold weather events; (2) the operational conditions leading into the day-ahead; (3) the operator actions taken to address events prior to day-ahead, day-ahead, and in real-time; (4) the information that was available from and provided to natural gas pipelines, natural gas marketers, electric generators, customers, and others, as appropriate; and (5) how it accounted for that information as part of its operations. The RTOs/ISOs should be prepared to discuss observations about regional market performance and lessons learned that would be relevant to improving performance of the Commission-regulated markets. Following each presentation, there will be time for questions from the Commissioners.

Panelists:

- Brad Bouillon, California Independent System Operator
- Peter Brandien, ISO-New England
- Richard Doying, Midcontinent Independent System Operator
- Wes Yeomans, New York Independent System Operator
- Michael Kormos, PJM Interconnection
- Bruce Rew, Southwest Power Pool

12:30pm 1:30pm Lunch

1:30pm 3:45pm Panel 2: Stakeholders Discussion

Each panelist will have 10 minutes to provide information on the following three topics:

1. **Experiences during the cold weather events:** Describe experience and observations during the cold weather events, the information that was available to assist in preparation, and the actions taken in real-time to respond.
2. **Lessons learned:** Explain the most important lesson(s) learned, particularly as relevant to regional electric market prices and performance, adequacy of infrastructure, fuel procurement, and fuel diversity.
3. **Policy implications:** Share observations about changes that could be made to improve the performance of Commission-regulated markets during future extreme weather events. Panelists are encouraged to highlight any short-term operational, fuel procurement, or other changes that may be necessary before next winter. Additionally, they should share their views on any long-term improvements needed in the future more generally.

Panelists

- John Sturm, ACES Power Marketing
- Donald Sipe, American Forest & Paper
- Mark Stultz, BP
- Donald Schneider, First Energy
- David Devine, Kinder Morgan
- Paula Carmody, Maryland Office of the People's Counsel
